LONDON

PUBLISHED BY

THE ZOOLOGICAL SOCIETY OF LONDON

PRICE THREE SHILLINGS

December, 1957

SEPARATE SECTIONS OF THE ZOOLOGICAL RECORD

In addition to the complete bound volume, the separate Sections may be obtained singly, bound in printed paper covers.

The following are the Sections and their prices, viz.:—

	<i>s.</i>	<i>d.</i>
1. Comprehensive Zoology	3	0
2. Protozoa	10	0
3. Porifera	2	0
4. Coelenterata	4	0
5. Echinoderma	4	0
6. Vermes	10	0
7. Brachiopoda	4	0
8. Bryozoa	2	6
9. Mollusca	10	0
10. Crustacea	6	6
11. Trilobita	5	0
12. Arachnida	10	0
*13. Insecta	50	0
14. Protochordata	2	0
15. Pisces	8	6
16A. Amphibia	6	0
16B. Reptilia	7	6
17. Aves	10	0
18. Mammalia	10	0
19. List of New Genera and Subgenera	4	0

* Obtainable only from the Commonwealth Institute of Entomology, 56, Queen's Gate, London, S.W.7.

I. Comprehensive Zoology

COMPILED BY

S. MARKOWSKI, D.Sc.

This section includes works that deal with more than one branch of zoology, or that are of general interest to zoologists. It is, therefore, not complete in itself as regards any one subject included in it. The special sections complete each subject. A few memoirs included in the special sections are repeated in this section. No attempt is made to include all works on genetics or physiology as these subjects are more suitably covered by the Imperial Bureau of Animal Genetics and *Resumptio Genetica*.

I.—TITLES

The year of publication is omitted where it is the same as the volume year of the 'Record', namely (1956).

Declaration 24. Opin. int. Comm. zool. Nom. 13: xvii-xxvi.

Declaration 25. Opin. int. Comm. zool. Nom. 13: xxvii-xxxvi.

Declaration 26. Opin. int. Comm. zool. Nom. 13: xxxvii-1.

Declaration 27. Clarification of the question of the species to be accepted under Rule (f) in Article 30 as the type species of a nominal genus established as a substitute for a previously established such genus but with a designated type species different from that of the nominal genus so replaced. Opin. int. Comm. zool. Nom. 14: i-x.

Declaration 28. Clarification of the status of a name given to a family-group taxon based upon a misidentified type genus. Opin. int. Comm. zool. Nom. 14: xi-xxiv.

Declaration 29. Introduction and definition of the expression "Linnean tautonymy" in relation to the determination of the type species of a nominal genus under Rule (d) in Article 30. Opin. int. Comm. zool. Nom. 14: xxv-xxxii.

Direction 54. Addition to the *Official List of Family-Group Names in Zoology*, or, as the case may be, to the *Official Index of Rejected and Invalid Family-Group Names in Zoology* of the family-group names involved in the cases dealt with in Volume 12 of the "Opinions and Declarations rendered by the International Commission on Zoological Nomenclature", other than family-group names already dealt with in those "Opinions". Opin. int. Comm. zool. Nom. 12: 457-470.

Direction 58. Addition to the *Official List of Family-Group Names in Zoology* or, as the case may be, to the *Official Index of Rejected and Invalid Family-*

Group Names in Zoology of the family-group names involved in the cases dealt with in Volume 13 of the work *Opinions and Declarations rendered by the International Commission on Zoological Nomenclature*, other than the family-group names involved in connection with the generic names dealt with in *Opinion* 401. *Opin. int. Comm. zool. Nom.* 13: 275-290.

Opinion 380. Suppression for nomenclatorial purposes under the plenary powers of the catalogue of the collection of animals formed by Martinus Houttuyn prepared under the title *Animalium Musaei Houttuiniani Index* in connection with the sale of the collection in 1787. *Opin. int. Comm. zool. Nom.* 12: 1-32.

Opinion 417. *Opin. int. Comm. zool. Nom.* 14: 1-42.
